Task 2 (4 points). Decide which of the following statements are true (T), false (F) or not stated (NS) according to the text.

Graffiti is a serious problem in modern cities. Most people think that it is a crime because young people leave their "mark" on public and private buildings. Because of graffiti many of our city centres look dirty and dangerous. People are afraid to use the subway. To stop this social "disease", many towns have organised "graffiti walls" - special places where graffiti artists can practice their art legally. Graffiti walls bring teenagers together and help them to be creative. They show street artists how to use their art and express themselves in a good way. But the greatest advantage is that they help stop graffiti on buildings. Graffiti artists can display their talents legally.

As a result, cities with graffiti walls have less vandalism. On the other hand, there are people who think that graffiti walls do nothing to solve the problem. They argue that graffiti walls can make the problem worse, because they make the crime seem OK.

So there are both advantages and disadvantages to organised graffiti walls. Most people think that advantages are much greater. They are an excellent way to help with the problem of the graffiti in many of our cities.

1. Graffiti is a crime with serious punishment.
2. Graffiti makes cities look dirty and dangerous.
3. Graffiti walls can help teenagers to become friendly.
4. All people have the same opinion about graffiti walls.
